

Aladdine ABDOU

Mobile Application Developer

Phone: +33 7 82 54 34 70, **Email:** aladdine.dev@gmail.com, **Location:** Paris, France
Linkedin: www.linkedin.com/in/aladdine-dev, **Github:** www.github.com/aladdinedev, **Portfolio:** www.aladdine.dev

Passionate about mobile application development, I leverage my experience to turn ideas into user-centric applications.
I aspire to put my skills to work on **inspiring** and **challenging** projects.

Experience

Mobile Application Developer | Linnovlab, Vitry-sur-Seine, France *(Dec 2023 - Present)*

- Developed a digital ecosystem for restaurants notably POS systems, kiosks, and dashboards, using **Flutter** and **GraphQL APIs**, enabling a seamless user experience with **real-time** and **offline** features.
- Implemented **high-fidelity** and responsive user interfaces in collaboration with the design team using **Figma**.
- Optimized software development and deployment processes through **CI/CD** automation with GitHub Actions.
- Managed project tasks in an agile environment using Jira.

Mobile Application Developer | Walt Disney Imagineering, Montévrain, France *(Sept 2022 - Aug 2023)*

- Built an **offline-first** mobile snagging application with **Flutter** and a **REST API** with **Django**, streamlining field data gathering and **problem-solving** for technical experts, including Artistic Directors and Show Producers.
- Conducted stakeholder requirements analysis, benchmark studies, and designed functional models with Merise.
- Integrated DevOps best practices using **Docker**, GitLab CI/CD, Terraform, and Vault; collaborated closely with U.S. teams for **iOS** and **AWS** (ECS, RDS, S3) deployments.
- Onboarded new team members on the project through pair-programming and Confluence **documentation**.

Mobile Application Developer | Solutions Multi Techniques, Herblay, France *(Jan 2022 - Feb 2022)*

- Developed a PWA with **Flutter** for security system technicians enabling technicians to generate PDF quotes for faster client delivery, thereby **increasing conversion** rates.
- Implemented a set of **Firebase** services: Authentication, Firestore, Storage, etc.

Web Developer | Association FAIRE, Villejuif, France *(May 2021 - June 2021)*

- Built the association's new website, increasing traffic to over 500 monthly visits and offering visitors the opportunity to **learn** about the organization and **get involved**.

Education

Master's Degree in Mobile and IoT Development | ESGI, Paris, France *(Sept 2023 - Present)*

- **Relevant Coursework:** Software Architecture, **Android** Jetpack Compose (Kotlin), **iOS** SwiftUI (Swift), Embedded Systems, UX/UI Design
- **Hackathon:** Led a team of 7 developers and won the **public favorite** award for the development of a battle royale game extension for WorkAdventure.

Project

- Created a **Bluetooth** game controller with ESP32 **microcontrollers** and a companion application in **Flutter** allowing players to customize their controller's keys for a **competitive edge**.
- Conducted a penetration test on a vulnerable **Android** application, identified and documented 4 high-severity vulnerabilities with an average CVSS score of 7.4, along with a security improvement plan.
- Developed a customizable **Flutter** portfolio template deployable **in under 10 minutes**.
- Currently developing an advanced MOOC on Industrial **IoT**, aimed at experienced IT students.

Technical Skills

Flutter (Dart) • **Django** (Python) • **DBMS** (PostgreSQL, SQLite, MongoDB) • **APIs** (REST, GraphQL) • **Docker**
Firebase • **CI/CD** (GitHub Actions, Fastlane) • **Git** • **Linux** • **Figma**

Languages

French (Native) • **English** (Professional)

Interests

Manga Culture (Nekketsu, Psychological) • **Video Games** (Platformers, Multiplayer)
