Bottlepos is a cloud-based liquor business SAAS point of sale system. We developed a web as well as an installable solution for our client. Businesses buy our system on a subscription basis.

Below I highlighted the features that we developed:

- User roles and permission
- RFID technology integration for barcode scan
- Inventory, purchase and sale order
- PAX Machine and Dyno scanner integration
- Customer screens - Partial payment (online and cash)
- Smart Search and Reporting
- Custom invoicing system
